AUTOSHOW

A cycle of seven short plays

AutoShow is comprised of seven 10-minute plays, written by some of **Toronto's hottest playwrights** and performed by an ensemble of even **hotter actors**. The action of each play takes place inside **real live automobiles!** Our team of friendly, attractive, and expertly trained **AutoHosts** will divide our **Valued Guests** into small, intimate clusters and escort them through the seven theatrical exhibits, bringing them right up to the windows of the spaces where our stories unfold...even into the back seat!

The creators of **AutoShow** firmly believe that the car you drive tells us everything you want us to know about you. What's more, we believe that when you venture inside the sleek steel shell of your chosen chariot, your **perspective on life** and your capacity for **personal freedom** can expand immeasurably – **IF you're willing to take the risk.**

Experience AutoShow. And dare to leave your seatbelt – *un*buckled.
